Statement from the WA Electoral Commission

The WA Electoral Commission is committed to delivering a Legislative Council result acknowledging the importance these positions hold in the Parliament of Western Australia.

The count to determine the membership of the Legislative Council is continuing as a priority.

A complex count has contributed to a longer count processing time than expected, however the accuracy and integrity of the result is a priority.

The WA Electoral Commission is working hard to deliver the final result for the Legislative Council this week.

We thank candidates and the public for their ongoing patience.
